Cementitious Repair Mortar For industrial use only US Concrete Products 16 Greenmeadow Drive #202 Timonium, MD 21093 1-866-827-8727 www.uscproducts.com 1-800-424-9300

2. <u>HAZARD IDENTIFICATION</u>

Physical Hazards: Health Hazards:	Not Classified Skin Corrosion/Irritation Serious Eye Damage/Irritation Sensitization, Skin Carcinogenicity STOT, Repeated Exposure	Category 2 Category 1 Category 1 Category 1A Category 2 (Lung)	
Environmental Hazards:	Not Classified.		
Signal Word:	DANGER!		
Hazard Statements:	Causes skin irritation. Causes serious eye damage. May cause an allergic skin reaction. May cause cancer. Causes damage to organs (lungs) through prolonged or repeated exposure.		
Precautionary Statements:			
Prevention:	Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear protective gloves/protective clothing/eye protection/face protection. Do not breathe dust, fumes, or vapors. Use only outdoors or in a well- ventilated area. Do not eat, drink, or smoke when using this product. Wash thoroughly after handling. Contaminated clothing should not be allowed out of the workplace.		
Response:	If on skin: Wash with plenty of water. If skin irritation or rash occurs: Get medical advice/attention. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. If inhaled: Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a poison center/doctor if you feel unwell.		
Storage: Disposal:	Store locked up. Store in a well-ventilated place. Keep cool. Dispose of contents/container in accordance with local/regional/national/international regulations.		

Hazards not otherwise Classified (HNOC): Can form explosive air-dust mixtures, avoid creating dust.

3. <u>COMPOSITION INFORMATION</u>

Chemical Name	CAS Number	Weight %
Crystalline Silica, Quartz	14808-60-7	40-60
Portland Cements	65997-15-1	20-40
CSA Cement	93662-00-4	1-10
Limestone	1317-65-3	1-10
Fly Ash	68131-74-8	1-10

SAFETY DATA SHEET

Composition Note: This product is a mixture. Hazardous ingredients are listed above. May include other nonhazardous ingredients. May include other trace ingredients, see Section 15.

4.	FIRST-AID MEASURES	
	Eye Contact: Skin Contact:	Immediately flush eyes with plenty of cool water for at least 15 minutes while holding the eyes open. Remove contact lenses if present and easy to do. If you experience redness, burning, blurred vision, or swelling consult a physician immediately . Remove contaminated clothing and product, immediately wash affected area with soap and water. Do not apply greases or ointments. If rash or irritation occurs consult a
	Ingestion: Inhalation:	physician.Rinse mouth immediately. Do not induce vomiting. Consult a physician.Remove patient to fresh air. Give oxygen or artificial respiration if needed. If patient continues to experience difficulty breathing, consult a physician.
	Most Important Symptoms:	Irritant effects. Symptoms include itching, burning, redness and tearing. Permanent eye damage, including blindness could result. Discomfort in the chest, shortness of breath, coughing.
	General Information:	Provide general supportive measures and treat symptomatically. Symptoms may be delayed. Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. If exposed or concerned: Get medical advice/attention. Wash contaminated clothing before reuse.
5.	FIRE-FIGHTING MEASURES	<u>S</u>
	Additional Information:	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO ₂). Can form explosive air-dust mixtures, avoid creating dust. During a fire, gases hazardous to health may be formed. Use standard fire-fighting procedures and consider the hazards of other involved materials. In case of fire and/or explosion do not breathe fumes. Self-contained breathing apparatus and full protective clothing must be worn. Move containers from fire area if you can do so without risk. Cool containers with flooding quantities of water until well after fire is out. Prevent runoff from fire control or dilution from entering streams, sewers, or drinking water supply.
6.	ACCIDENTAL RELEASE ME	ASURES
	Personal Precautions:	Keep unnecessary personnel away. Avoid generating dust. Wear appropriate personal protective equipment. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Avoid inhalation of dust. Ensure adequate ventilation. If the concentration of dust exceeds the permissible exposure limit wear a respirator.
	Clean-up Methods:	Avoid dry sweeping. Do not use compressed air to clean spilled silica sand. Use water spraying/flushing or ventilated or HEPA filtered vacuum cleaning system. Dispose of in closed containers.
	Environmental Precautions:	Avoid release to the environment. Contact local authorities in case of spillage to drain/aquatic environment. Prevent further leakage or spillage if safe to do so.
7.	HANDLING AND STORAGE	
	Handling:	Avoid generating dust. Mechanical ventilation or local exhaust ventilation is recommended. Use all available work practices to control dust exposure, such as water sprays. Wear appropriate personal protective equipment. When using, do not eat, drink or smoke. Avoid contact with eyes, skin, and clothing. Do not breathe dust. Wear a respirator if dust concentrations exceed permissible exposure limits. Do not permit dust to collect and build up on work surfaces, use good housekeeping. Avoid contact with unhardened cement products. Observe good industrial hygiene practices.

SAFETY DATA SHEET

Storage:

Use dust collection to trap dust produced during loading and unloading. Store in a closed container away from incompatible materials (See Section 10 of the SDS). Store in a cool, dry place out of direct sunlight. Store in a well-ventilated place. Protect against physical damage.

8. <u>EXPOSURE CONTROLS/PERSONAL PROTECTION</u>

Protective Measure: Eye Protection: Hand Protection:	Wear appropriate personal protective equipment. Wear chemical splash goggles or safety glasses with side shield. Wear chemical-resistant gloves such as: Nitrile, neoprene, butyl.
Skin and Body Protection:	Wear long sleeve shirt/long pants and other clothing as required to minimize contact. In
21111 unu 2004 110000000	case of dust production, dust-proof clothing. Avoid contact with unhardened cement products, if contact occurs wash immediately with soap and water.
Respirator Protection:	Use a NIOSH-approved air-purifying or supplied-air respirator where airborne concentrations of dust are expected to exceed exposure limits.
General Hygiene:	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.
Engineering Controls:	Mechanical ventilation or local exhaust ventilation is recommended. Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station and emergency shower.

Exposure Limits:

Component OSHA		ACGIH	NIOSH	
(PEL)		(TLV)	Pocket Guide	
Quartz (CAS 14808-60-7)	$\frac{10}{\frac{0}{6}SiO_2 + 2} \frac{mg}{m^3} m^3$ (respirable)	0.025 mg/m ³ (respirable)	0.05 mg/m ³ (respirable)	
CSA Cement	5 mg/m ³ (Respirable)	1 mg/m ³ (respirable)	5 mg/m ³ (Respirable)	
(CAS 65997-16-2)	15 mg/m ³ (Total dust)		15 mg/m ³ (Total dust)	
Portland Cements	5 mg/m ³ (Respirable)	1 mg/m ³ (respirable)	5 mg/m ³ (Respirable)

TOXILOGICAL INFORMAT	ON	
Information on likely routes of e	kposure:	
Ingestion:	Expected to be a low ingestion hazard.	
Inhalation:	Irritation to nose and respiratory tract.	
Skin contact:	Causes skin irritation. May cause sensitizat	tion by skin contact.
Eye contact:	Causes serious eye damage. Particles can	cause corneal abrasion.
Information on toxicological effe	cts:	
Acute toxicity:	Occupational exposure to the substance or	mixture may cause adverse effects.
Skin corrosion/irritation:	Causes skin irritation.	
Eye damage/eye irritation:	Causes serious eye damage.	
Respiratory sensitization:	Not a respiratory sensitizer.	
Skin sensitization:	May cause sensitization by skin contact.	
Germ cell mutagenicity:	No data available.	
Carcinogenicity:	May cause cancer.	
	IARC Monographs. Overall Evaluation	of Carcinogenicity
	Quartz (CAS 14808-60-7)	1 Carcinogenic to humans.
	NTP Report on Carcinogens	
	Quartz (CAS 14808-60-7)	Known To Be Human Carcinogen
Reproductive toxicity:	No data available.	
Aspiration hazard:	No data available.	
Specific target organ toxicit	y:	
Single exposure	No data available.	
Repeated exposure	Causes damage to organs (lungs) through p	prolonged or repeated exposure (inhalation).
	Repeated or prolonged exposure to Respira	able silica dust will cause lung damage in the
	form of silicosis. Symptoms include progre	essively more difficult breathing, cough,
	fever, and weight loss. Acute silicosis can	be fatal.
Further information:	Toxicological, ecotoxicological, physical,	and chemical properties may not have been
		timated based on best available information.
		edical conditions such as: asthma, allergies,
	or impaired pulmonary and/or liver functio	
	to this material, may be affected by exposu	
ECOLOGICAL INFORMATI	ON	
Ecotoxicity:	This material is not classified as environme	entally hazardous. However, this does not
	exclude the possibility that large or frequer	
	effect on the environment	ar spins can have a harman or duringing
Persistence and degradability:	Not readily biodegradable.	
Bioaccumulative potential:	Not expected to bioaccumulate.	
	rest empleted to biodeculturates	

formed on the addition of water.

No data available. No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this product.

DISPOSAL CONSIDERATIONS 13.

Mobility in soil:

Other adverse effects:

Waste Disposal of Substance:	Do not allow material to drain into sewers/water supplies. Do not contaminate ponds,
	waterways or ditches with chemical or used container. Dispose of contents/container in
	accordance with local/regional/national/international regulations.
Container Disposal:	Empty containers or liners may retain some product residues; follow label warnings
	even after container is emptied. Empty containers should be taken to an approved waste
	handling site for recycling or disposal.
Disposal of Cured Product:	Grind or chip off surface. Solid material does not require special disposal considerations
	considerations

14. TRANSPORTATION INFORMATION

United States Department Of Transportation (USDOT): Not regulated as a hazardous material by DOT.

International Air TransportationAssociation (IATA):Not regulated as a dangerous good.

International Maritime

Dangerous Goods Code (IMDG): Not regulated as a dangerous good.

Special precautions for user:Read safety instructions, SDS and emergency procedures before handling.Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code:Not applicable.

This information does not cover all specific regulatory or operational requirements of this product. The classifications for transportation may vary by container volume or different regional or national regulations.

15. <u>REGULATORY INFORMATION</u>

US Federal Regulations:

This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D): US. OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050): CERCLA Hazardous Substance List (40 CFR 302.4):

Not regulated. Not listed. Not listed.
